

Working paper 1.1
DISEC- Nuclear Security in a changing global environment
Signatories: China, USA, Japan

1. We need a new mechanism for nuclear emergency:
 - a. It can tackle the information s of disasters (e.g. It may have a center to control the distribution and service)
 - b. Can help the suffered countries to contact international society.
 - c. it can offer humane supports (e.g.: first aid, goods distribution)
 - d. Offer aftermath aid for refugees (e.g.: help to building a refuge)
2. To recommend the IAEA to set the standard disaster guide (e.g. disaster SOP).
3. It can set new academic institute to do the research for possible compound the disaster.
4. It can publish annually authoritatively examine report for the nuclear power plant in the IAEA member.
5. The member of IAEA should provide the funding of this mechanism.
6. It may try to hold the cross-nation maneuver beforehand for compound disaster.
